Conversation in the spirit is a method of **communal discernment** and **meaningful dialogue**. It is a way of **being present to one another in conversation**.

It is an approach that takes seriously **what happens in the hearts** of those who are conversing.

There are two necessary attitudes that are fundamental to this process:
**active listening and speaking from the heart**.

SCAN ME

The aim of conversations in the Spirit is **to create an atmosphere of trust and welcome, so that people can express themselves more freely and where we can be open to the movement of the Holy Spirit**.

# CONVERSACIONES EN EL ESPÍRITU

La conversación en el Espíritu es un método de **discernimiento comunitario y diálogo profundo.**

Se basa en **escuchar con el corazón** y en hablar desde la propia **experiencia de fe**.

No busca ganar una discusión sino conectar con lo que sucede en **el interior de cada persona** en el grupo de escucha.

SCAN ME

El objetivo de las conversaciones en el Espíritu es **crear un ambiente de confianza y acogida, para que las personas puedan expresarse con más libertad y para que podamos estar abiertos al movimiento del Espíritu Santo.**

**“AI and the Catechetical Leader: Wisdom, Discernment, and Practical Boundaries”**
**by Dr. Joseph White (Sponsored by OSV Publishing)**
Artificial Intelligence is quickly reshaping how we communicate, how young people learn, and how ministry leaders' work. But how should we respond? This workshop explores recent Catholic Church teaching on AI, including Pope Leo’s encyclical letter Magnifica Humanitas, through the lens of catechetical ministry. Together we’ll examine both the opportunities and the dangers AI presents for parish and diocesan leadership, including lesson planning, communication, truthfulness, pastoral care, privacy, and the formation of children, teens, and adults. Participants will leave with practical principles, clear boundaries, and concrete strategies for using AI wisely and faithfully in catechetical ministry.

**“Windows of Opportunity: How Child Development Can Help us Present the Right Content at the Right Time”**
**by Dr. Joseph White**
Is there a “right time” to discover particular faith concepts? Recent discoveries in brain science, paired with research in social, cognitive, and moral development, suggests that there are particular “windows of opportunity” – developmental periods when children and teens will be most engaged as they encounter specific material and concepts. Come and discover how this work applies to faith formation as we explore how the science of child and adolescent development can help us prepare learners for a lifelong journey of faith.

“**Built for Belonging: The Spirituality and Neuroscience of Community and Mission”**
**by Dr. Anne Kertz Kernion (Sponsored by Cards by Anne)**

This workshop will highlight the Catholic understanding of the family as the Domestic Church, where faith is nurtured through prayer, example, conversation, participation in the Mass, and everyday family life. Participants will consider practical ways parishes can accompany families beyond Baptism, helping them build a lifelong relationship with Christ and remain active members of the parish community.

**“What in Heaven's Name is a Missionary Disciple?“**
**by Dave Nodar (Sponsored by ChristLife - Catholic Ministry of Evangelization)**
Beyond the rhetoric, how can we personally respond to the Lord Jesus' call to make disciples? In this workshop, we will consider what is necessary to be and to make missionary disciples according to the Gospels and Church teaching.

**“Collaboration - Building Blocks to Fostering Partnership” by Sr. Donna L. Ciangio, OP**
In todays' world, we all need to work together. “**Do You Not Perceive It?” by Kelly Ann Lynch (Sponsored by Paulist Press)**
